

2006 NATIVE PLANT SALE LIST

EVERGREEN TREES	HEIGHT	PLANT DESCRIPTION / USES	HABITAT
Douglas Fir Pseudotsuga menziesii	200'	Fast-growing, used for windbreaks, wildlife, fuel wood, lumber.	Prefers full sun. Grows in all but the wettest conditions. Drought tolerant.
Grand Fir Abies grandis	140'-200'	Straight, stately conifer. Glossy dark green flat needles. Popular, fragrant Christmas tree.	Full sun to partial shade. Tolerant of varying soils and moisture conditions.
Noble Fir Abies procera	200'	Tall, symmetrical conifer with spirally arranged dark green needles. Popular, fragrant Christmas tree.	Grows best in full sun. Needs adequate moisture and drainage.
Shore Pine Pinus contorta "contorta"	15-100'	Relatively short conifer with variable form from crooked to straight trunk.	Full sun. Highly adaptable to soil and moisture conditions from wet marsh to well-drained gravel.
Sitka Spruce Picea sitchensis	200'	Stiff, sharp-pointed pale green needles and droopy branches.	Full sun to partial shade. Prefers deep, moist, aerated soils.
Western Hemlock Tsuga heterophylla	140'-180'	Graceful, down-sweeping branches and feathery foliage.	Prefers shade. Grows best in deep, moist, well drained soil, with high organic matter.
Western Red Cedar Thuja plicata	200'	Flattened, spray-like branchlets on drooping branches.	Full sun to full shade. Tolerates saturated soils and seasonal flooding.
DECIDUOUS TREES	HEIGHT	PLANT DESCRIPTION	HABITAT
Bigleaf Maple Acer macrophyllum	40-100'	Large tree on a short trunk. Large, five-lobed leaves turn yellow in fall.	Full sun to partial shade. Moist to somewhat dry, well-drained soils.
Bitter Cherry Prunus emarginata	20-50'	Small tree with thin, reddish-brown bark and small, attractive, bright red fruit. Suckers, can form thickets.	Prefers full sun. Dry to wet sites.
Pacific Crabapple Malus fusca	40'	Tree or large shrub in thickets. Typical apple leaves. White flowers in spring, tiny crabapples in fall.	Full sun to partial shade. Moist sites. Tolerates saturated soil.
Red Alder Alnus rubra	120'	Fast growing, short-lived tree. Fixes nitrogen. Often used for firewood.	Full sun to partial shade. Adaptable to poor soil conditions. Tolerates flooding and drought.
Rocky Mountain Maple Acer glabrum	30'	Small deciduous tree or large upright shrub. Similar to vine maple but more tolerant of sun, wind and dry conditions.	Full sun to partial shade. Dry to somewhat moist sites.
Vine Maple Acer circinatum	10-30'	Large shrub or small deciduous tree. Vibrant fall colors.	Full sun to partial shade. Dry to somewhat moist sites.
